Protocolli di valutazione per la sostenibilità in edilizia – 6 CFU CdL Magistrale a c.u. in Architettura – a.a. 2022/2023 Ing. Arch. Stefano Cascone

## PART 4 – Integrative process (IP)

Protocolli di valutazione per la sostenibilità in edilizia – 6 CFU CdL Magistrale a c.u. in Architettura – a.a. 2022/2023 Ing. Arch. Stefano Cascone

## <u>Integrative process – Credit (1 point)</u>

The credit awards a point to the projects that implement an integrative (i.e. collaboration of team members) starting from the pre-design phase of the project and continuing throughout all the design phases.

The project team will need to conduct <u>preliminary research</u> and analysis to evaluate possible energy and water strategies to achieve the project's goals and performance.

The intent of this credit is to support high-performance, cost-effective project outcomes through an early analysis of the interrelationship among systems.
